TECHNICAL BULLETIN

ORCO ANTISTAT TRI-275®

Description: A nonionic antistat designed for use on synthetics, woolens and cellulosic fibers and their respective blends. This product has exceptionally low color and is non-yellowing. It contains no mineral oil or alcohol. **Orco Antistat TRI** is compatible with most lubricants although this may not be necessary as this product has inherent lubricity. Removal is easy, using warm water and a suitable nonionic such as **Orconol CHSA Conc.** at the rate of .25-.50 % o.w.g.

Properties:

Appearance-	light yellow, pourable fluid
PH-	(1.0% sol.)- 9.0
Ionic Charge-	Nonionic
Spec. Gravity-	1.02
Solubility-	All proportions in warm water since cold water may cause gelling
Odor-	Mild and pleasant

Advantages:

Compatible with most other auxiliaries.
Easily removed which is especially important when the possibility of redyeing exists.
Non yellowing
Economical

Application:

Generally placed in the last rinse just before extracting (no rinse), but also used in spray applications or continuously in a pad/ dry operation.

Last rinse application- 1.0-3.0 % o.w.g.
Spray Application - .5-3.0 oz./gal.
Continuous application- 1.0-3.0 oz./gal. (45-60 % wet-pickup)
