ORCO SALT O SOLUTION®

Description:

Orco Salt O Solution is a specially compounded product for use in all phases of textile dyeing and finishing. **Orco Salt O Solution** at a concentration of 1 - 2% owg is especially beneficial when used as a dyeing assistant for acrilan carpet fibers giving level bright shades.

Orco Salt O Solution, when used in acid and disperse dye baths, functions not only as a dye leveler/migration promoter, but also helps to remove and disperse oil and grease contaminants commonly found on most synthetic and wool fabrics.

Properties:

<i>Appearance</i> -	Clear, yellowish liquid
<i>pH</i> -	6.7 - 7.5
<i>Dry Matter</i> -	30%
<i>Charge</i> -	Non-ionic
<i>Solubility</i> -	All proportions soluble in water
<i>Classification</i> -	A polyethyleneoxycarbinol used for dyeing, leveling, and finishing of textiles.

Procedures:

Feed the **Orco Salt O Solution** into the kettle at the boil (acid dyeing) 1 - 2% owg. This gives an excellent leveling assistance to **Orcoacid** and **Orcolan** dyeings.

Orco Salt O Solution is also an excellent product to use for pre-scour or boil-off.
