

ECCO CORD™ SIZING WAX M66

CLASSIFICATION

Modified textile sizing compound and cord wax.

PROPERTIES

Appearance	- viscous white paste
Solubility in water	- Dispersible
Density, lbs/gal	- 7.8
pH	- 8.0 ± 1.0

STABILITY

- Stable to normal storage conditions in closed container for 6-9 months.
- Protect drum from freezing.
- Some stratification may occur during storage.
- Drum should be stirred well before use to insure uniformity.

Notes

- **ECCO CORD™ SIZING WAX M66** contains a biocide to retard bacteria growth. Container should be kept tightly sealed to minimize air entry.
- Use **R™ AP-900** at a rate of 1-3% by weight on total resin.
