

## ECCOWHITE™ LOS

### DESCRIPTION

Fluorescent optical brightener for non-aqueous systems

### TYPICAL PROPERTIES

Appearance	- Light yellow powder.
Density	- 10.6 lbs/gallon
Solubility @ 2%:	
Water	- Insoluble, but dispersible
Ketones	- Soluble
Alcohols	- Soluble
Glycol Ethers	- Soluble
Ester Solvents	- Soluble
Aromatics	- Soluble
Chlorinates	- Soluble

### USES

ECCOWHITE™ LOS is an excellent brightener for solvent acrylics, epoxies and other solvent based coatings.

ECCOWHITE™ LOS can be used in thermoset and thermoplastic resin, plastics, films and molded goods.

ECCOWHITE™ LOS is used for detergent systems as a fabric brightener or whitener when used with a nonionic, anionic or cationic surfactant.

ECCOWHITE™ LOS is very effective on nylon, silk, wool and acetates.
