

## ECCO™ SILICONE EMULSION #3 COR

### CLASSIFICATION

Non-ionic silicone based lubricant and release agent.

### PROPERTIES

Appearance	Milky Off-white Emulsion
pH (2%)	6-8
Solubility in Water	Milky Dispersion
Density	8.12 lb/gal
Viscosity	10-15 seconds #5 Zahn Cup

### GENERAL COMMENTS

ECCO™ SILICONE EMULSION #3 COR is a nonionic silicone based lubricant and release agent.

ECCO™ SILICONE EMULSION #3 COR has found acceptance in the wire processing industry as providing excellent lubricating properties for wire cable manufacturing.

ECCO™ SILICONE EMULSION #3 COR is an excellent release for latex and latex foam products

ECCO™ SILICONE EMULSION #3 COR has a proprietary anti corrosion additive added to protect metal parts from corrosion.

### APPLICATION

ECCO™ SILICONE EMULSION #3 COR is recommended for use at diluted levels for applications requiring maximum lubricity and release properties.
