

OrcoWet DSN™

OrcoWet DSN™ is an extremely fast anionic wetter for use in continuous dyeing and finishing offering good bath stability in the pH range of 2 - 10.

Physical Properties

Appearance	Clear to hazy pourable liquid
Odor	Mild
Ionic charge	Anionic
Activity	30 ± 1%
Solubility	All proportions in water
pH	6

Applications

OrcoWet DSN™ is used in wetting, dispersing, solubilizing, and emulsifying.

Procedures

Pre-dissolve **OrcoWet DSN™** in warm water.

For **continuous dyeing** and finishing wet-out, use 0.1 - 0.25% on weight of bath.

For **exhaust dyeing** wet-out and dispersing, use 0.25 - 0.50% on weight of goods.
