

RainBead™

RainBead™ is a durable sealant for glass providing a smooth, crystal-clear finish. Moisture beads away due to the slick protective barrier that is formed on the glass and is applicable to any glass surface such as windshields and shower stalls.

Physical Properties

Appearance	Clear liquid
Odor	Mild to strong
Ionic Charge	Non-ionic
Flashpoint	57°F
Solubility	Soluble in water
pH	4.5 – 5.5

Procedures

- Clean and dry surfaces to be treated.
- Apply **RainBead™** to surface using a circular, overlapping motion.
- Allow to dry. A slight haze will appear.
- Buff off final haze using a clean dry cloth.

If streakiness occurs, rebuffer with a damp cloth.

Storage

- Store in a cool ventilated area.
- Keep temperature below 120°F.
