

ECCOTERGE™ AEP-20

CLASSIFICATION: Ammonium salt of polyoxyethylene nonylphenyl ether.

PROPERTIES:

Appearance	- Clear liquid, mild odor.
Active solids	- 30% minimum
Density	- 7.0 ± 0.5
Shelf Life	- 11-13 months

GENERAL COMMENTS:

ECCOTERGE AEP-20 is an anionic ethoxylated ether solution exhibiting outstanding versatility, stability, and chemical compatibility.

This product is an excellent polymerization emulsifier for SBR, acetates, and other monomers.

ECCOTERGE AEP-20 is also useful in the scouring of textiles and is also a general all purpose cleaner.
