

## Orco DeFoamer DF-NS™

**Orco DeFoamer DF-NS™** is an organic based non-silicone anti-foaming agent with excellent knock-down and foam controlling properties. It performs very well in pigment printing and pad dyeing where foaming is undesirable.

### Physical Properties

<b>Appearance</b>	Cream colored, slightly viscous liquid
<b>Viscosity(cps)</b>	1500 - 3000
<b>Solubility</b>	Completely soluble in water
<b>pH</b>	8.5 – 10.0

### Application

Recommend 0.50 – 2% addition to weight of the print paste for controlling foam build up.
