

Orcosolve™ Blue RLS-MC

OrcoSolve™ MC dyes are solvent soluble, metal complex dyes of high quality for use in the inks and coating industries. These products offer superior solubility in organic solvent systems. In addition to this standard product line we also offer many other specialty solvent dyes as well as custom formulated blends.

Please contact your ORCO representative for further information on application and availability.

Physical Properties:

Form:	Fine powder
Specific Gravity (g/cc):	~1.30
Chemical Type:	Anthraquinone
Color Index:	Solvent Blue 45
Melting Point °C:	200

Application:

OrcoSolve™ Blue RLS-MC is typically used in inks, adhesive, metal finishing, stains and in some plastics applications. It can be shaded as a full strength (100ppm+) ink, or as a lower strength (20ppm) addition to an adhesive, or coating for visibility and branding.
