

Orcosolve™ BLACK RE-MC

OrcoSolve™ MC dyes are solvent soluble, metal complex dyes of high quality for use in the inks and coating industries. These products offer superior solubility in organic solvent systems. In addition to this standard product line we also offer many other specialty solvent dyes as well as custom formulated blends.

Please contact your ORCO representative for further information on application and availability.

Physical Properties:

20 ppm

100 ppm

Form:	Fine powder
Specific Gravity (g/cc):	~1.740
Chemical Type:	Azo, Metal Complex
Melting Point °C:	200

Application:

OrcoSolve™ Black RE-MC is typically used in inks, adhesive, metal finishing, stains and in some plastics applications. It can be shaded as a full strength (100ppm+) ink, or as a lower strength (20ppm) addition to an adhesive, or coating for visibility and branding.

Shelf life:

This dye has a shelf life of 7 years, as long as it is stored in a sealed container, in a cool, dry facility,
